Professional Summary

Full-stack web developer with 3+ years of experience building responsive and scalable web applications. Proficient in React, Node.js, Express, MongoDB, and Firebase with strong expertise in both frontend and backend development. Passionate about problem-solving, writing clean code, and delivering high-quality user-focused digital products.

Featured Projects

JSYK (Anonymous Feedback Platform)

- Built a full-stack anonymous feedback platform allowing users to create topics with images and receive anonymous responses.
- Implemented Redis-based rate limiting to block spam and improve security.
- Tech stack: TypeScript, React, TailwindCSS, Firebase Auth, Cloudinary, Express, MongoDB, Redis

Live: <https://jsyk.pxxl.click>

Creatives30 (Project Submission Platform)

- Developed a coding challenge platform where users can submit project details daily for 30 days.
- Designed versioning workflow to track daily project submissions and progress.
- Tech stack: JavaScript, React, TailwindCSS, Express, Supabase, Firebase Auth, MongoDB

Live: <https://creatives30.vercel.app>

Custom Auth System

- Built a custom backend authentication system with secure JWT-based user management.
- Designed endpoints for login, signup, and token verification.
- Tech stack: Node.js, Express, JavaScript, JWT

Technical Skills

- Programming: JavaScript, TypeScript, React.js, Node.js, Express.js, HTML, CSS, TailwindCSS
- Tools & Platforms: Git, GitHub, Postman, Vercel
- Database & Cloud: MongoDB, Firebase, Supabase, Cloudinary, Redis

Education

Bachelor's Degree (In Progress)

Soft Skills

- Tools & Platforms: Ability to analyze complex issues and develop effective technical solutions.
- Collaboration: Worked effectively with peers on projects, ensuring smooth delivery of high-quality products.
- Adaptability: Quickly learned and applied new technologies such as Redis, Firebase, and Supabase to meet project needs.
- Leadership and Time Management: Organized and managed daily submissions for Creatives30, ensuring timely and consistent project delivery.
